Canton, MA 02021

1/26/21

For Immediate Release:

On January 25, 2021 at approximately 4:15 p.m. a 7 year-old boy was riding the double chairlift when he fell from the chair. Inspection revealed no identifiable mechanical issues with the double chairlift and it is fully operational. While the investigation is ongoing, there is nothing to suggest there were any mechanical issues that caused or contributed to this unfortunate event. We have reached out to the parents to let them know the thoughts of the entire Blue Hills community are with the young boy and his family.
